

### LEARNING PLAN

Learning Need	Activities to meet Learning Need (Provide <u>2</u> or more specific activities for each Learning Need)	Evidence of Evaluation (Specific examples that show how the activity changed, influenced or enhanced your nursing practice).
<p><b>Learning Need #1:</b></p> <p>Work to improve leadership/interpersonal skills.</p>	<ul style="list-style-type: none"> <li>• Attended 2 Achieve Training Centre workshops:               <ol style="list-style-type: none"> <li>1) Assertive Communication (1-day course) October 2017</li> <li>2) Leadership and Management (1-day course) March 2017</li> </ol> </li> </ul>	<p>Took over the role of clinical coordinator in January of this year and have been dealing with many interpersonal issues since. The knowledge I have gained in these courses has given me the confidence and skills to deal effectively with interpersonal issues. I have managed to have collaboration with the staff on several issues.</p>
<p><b>Learning Need #2:</b></p> <p>Update recovery room skills.</p>	<ul style="list-style-type: none"> <li>• To Increase the amount of time I am scheduled in the recovery room.</li> <li>• Attend PARR conference in December 2017.</li> <li>• Attended in-servicing provided by OR/PARR clinical coordinator. (Monthly 2017).</li> </ul>	<p>I feel more comfortable with higher care patients after scheduling more time in the recovery room, re-familiarizing myself with PARR complications, and improving my assessment skills of post-anesthesia patients.</p>
